I submit herewith an application from R Ranga Rao B A , B L , First Grade Clerk, General and Revenue Secretariat, for a scholarship to enable him to go to Europe and equip himself for work connected with the development of Co-operative Credit

2 Ranga Rao had a distinguished College career taking a first class in English in the B A Examiration and gaining the gold medal awarded to the student who is first in Political Economy The course of training which he proposes to undertake is, as explained in his application -

(1) To undergo the course for Indian students at Professor Lee-Smith's new "London School of Economics and Political Science" in order to obtain theoretical training in Economics, Business organization, Currency, Banking, Statistics and Accounting The course lasts for ° months from October 1909

(2) To study the special literature on the subject of Co-operative Credit and to obtain a practical knowledge of the working of the different forms of co-operation in Germany, Denmark and other European countries This will take about 10 months

(3) To complete the course with a study of Indian conditions and requirements by visiting the principal centres of Co-operative activity in India This may take 4 months after return from Europe

3 The course in Europe will last for 19 months exclusive of the time taken in travelling, and will cost about £500 which includes passage and equipment This is the amount of scholarship asked for

4 Ranga Rao's distirguished College career and the very good work he has been doing in the Secretariat as testified to by the Under Secretary, Mr D'Souza, and the General Secretary, and as has also come to the notice of the Councillors and myself, show him to be a man who is likely to make good use of any opportunity that may be afforded to him of studying the theory and practice of Co-operative Credit It is well known that Co-operative Credit will be one of the most important factors in the economic condition of India, and it is very desirable that we should have a man like Ranga Rao with first hand knowledge of European systems and methods to co-operate with and develop Mr M Shama Rao's efforts Co-operative Credit is as much a technical subject as any for the study of which Damodar Dass Scholarships are being

16

granted, but the rules for the grant of these scholarships as they now stand do not allow of one of the Damodar Dass scholarships being given for the study of this subject, or to a graduate whose optional subject is History There is however nothing to prevent a special scholarship being given in this case out of the savings of the Damodar Dass Scholarship Fund,which up to the end of December 1908 amounted to Rs 33,000 and represent the unutilised interest on the invested corpus of the Fund Not being one of the ordinary Damodar Dass Scholarships under the rules, but only a special scholarship out of accumulated savings, it will not be necessary to refer the application to the Damodar Dass Scholarship Committee It may be noted that the scholarship given to Mr N S Subba Rao for Economic studies in England was similar to this

5 Both the Councillors cordially support the application, and I recommend that the scholarship asked for may be sanctioned Early orders are solicited as the course in the London School of Economics and Political Science commences on the 4th October

6 It may be noted that Ranga Rao is a young man of about 28 years of age and has produced a medical certificate from the District Medical Officer,

Bangalore, which can hereafter be confirmed by the Senior Surgeon, to show that he is fit to undergo a course of studies in Europe Ranga Rao is a native of Mysore, being a son of retired Amildar Mr R Raghavendra Rao
